ECO-CONSCIOUS STRIDES

WHO WE ARE

Fossa Apparel, **a certified women-owned and minority-owned business**, is a recognized leader in the promotional products industry. We offer on-trend, retail-inspired clothing that our customers love to wear.

In addition to excelling with innovative designs and quality manufacturing, we also provide unique customized decoration services that will create a memorable experience and help build your brand.

OUR GREEN INITIATIVE

Fossa Apparel is intensifying its eco-friendly initiative by transitioning all garment polybags to recycled materials, significantly decreasing plastic byproducts. With yearly global plastic production reaching 380 million tons (40% from single use products), the detrimental effects to our environment, including 10 million tons in our oceans, are undeniable. In 2019 Fossa began our eco-friendly production, creating the Mirage shirt, which is made of 25% recycled polyester. Fossa is dedicated to reducing waste, lowering our carbon footprint, and continually seeking innovative environmental solutions. In addition to green production innovations, at our corporate headquarters we have implemented solar panels, electric car charging stations, and reuse practices.

OUR SUSTAINABILITY EFFORTS

Fossa Apparel is fully committed to being responsible caretakers of our planet. We offer eco-friendly products and take several waste-reducing measures, such as the following:

- ✓ **131.8 kW solar panel system** installed on rooftop to convert more than **98% of our energy usage to renewable source**. Completed December 2019.
- ✓ Four **Level 2 charging ports** installed in parking lot to encourage and support the use of electric vehicles. Completed January 2020.
- ✓ It is company policy that all internal use and non-confidential **paper are reused and printed on both sides** before recycling.
- ✓ Paper, cardboards, plastics **recycling on site**.
