New Patch Techniques

Introducing 7 new decoration techniques that offer rich color, eye-catching detail and exciting texture. From dimensional effects to intricate details and innovative finishes, these patch techniques provide a unique opportunity to elevate your cap's design.

Scan for more information, design ideas and FAQ.

FlexStyle™ Domed

Offers a shiny finish that creates a 3D effect, elevating brand logos or designs with a tactile experience. Available in both metallic and non-metallic finishes.

FlexStyle™ Flat

A 3D effect that appears flat yet dimensional, providing a subtle elevation to the design. Like the domed version, it comes in metallic and non-metallic finishes, offering versatility in branding applications.

Print Stitch

An innovative hybrid of embroidered and sublimated patch techniques, combining a full-color, photographic background with vibrant embroidery for added dimension and texture. This technique offers the best of both worlds, bringing designs to life with rich detail and depth.

Embroidered Appliques

High-quality embroidered appliques that mimic the appearance of direct embroidery. These patches come with a thin-stitched border and can be crafted into freeform shapes, perfect for detailed logos or designs.

Heat Transfer

Heat transfers offer a sleek, durable alternative to traditional sewn-on decorations. Utilizing advanced adhesive technology, these decorations can be securely attached to a variety of caps without the need for sewing, providing a clean and seamless look.

Chenille

Known for their plush, textured surface, Chenille patches offer a classic look often associated with varsity letters and collegiate apparel. These patches are perfect for adding a touch of nostalgia or sophistication.

Woven

Utilizing a tight interlaced weaving process, woven patches allow for intricate designs with a high level of detail, without the need for fabric backing.

Featured Fabrics

Our Perforated Performance fabric allows for optimum air flow through its perforated side panels to increase cooling capabilities. This fabric has a jersey sheen that will complement any uniform.

At first glance, PHENOM looks like a heavy-duty canvas fabric, but you have to feel it to believe how soft it actually is. This is a performance will you likely find among other athletic apparel.

This player-accepted and in-demand performance fabric is a great fit with any baseball uniform.

ProTech Mesh is engineered for athletes. It has a lightweight fit with a stretchy, smooth texture.

This lightweight performance fabric is just like the caps the pros wear on-field. Its sharp and clean look, and moisture wicking properties keep you cool and dry during the most intense games.

Our Premium Wool Blend fabric is made with 2% spandex, so there is just enough give in the fit to make it even more comfortable. This fabric helps you achieve a classic throwback look without sacrificing technology or performance.

Less than Minimum – Domestic Decoration

Minimum order quantity for embroidery or patches is 48 pcs per sku. Customers may reduce order quantity to 24 per color sku for a less than minimum fee of \$40.00(A).

Fabric Color Variations

Due to color variations of dye lots, exact color matches of material cannot be guaranteed. In camouflage patterns, differences may occur due to the random cutting. Certain distressed or washed materials will have shading variances.

Embroidery Colors

Every effort will be made to match PMS colors as closely as possible, however color matches cannot be guaranteed to be exact. In camouflage caps, Outdoor Cap cannot guarantee the pattern will not interfere with the decoration of the cap.

Overages/Shortages

While Outdoor Cap will strive to ship exact quantities every time, a 5% over and short variance will be considered complete and billable. If over 5%, a claim can be filed up to 30 days of receipt of order.

Cancellations

Once custom orders have been sent to production, it cannot be cancelled. Therefore, cancellations for custom orders will not be permitted or customer will be invoiced for the raw cost incurred from Outdoor Cap.

Order Changes

Once a custom order is in progress, changes are difficult to make depending on status of the order. However, if a change is necessary, the customer is responsible to compensate for any additional costs associated. If changes are necessary, email:
